The Apothecarist Program — 2027

"from raw plant to finished preparation — the craft of medicine making"

The full program: Apothecarist Medicine Making + Formulations + Advanced Theory + 6 intensives (144 contact hours) + 8 makers workshops | Start in any month

FOUNDATION & DIDACTIC

online courses that build the skills and theory behind the intensives

FOUNDATION · OPENS MF1, MF2 & ADVANCED THEORY

Apothecarist Medicine Making *

8-week online guided course on foundation skills. Starts every August.

Formulations & Formulas

A 3-week online course focused on how to combine herbs to make custom formulas. Offered every June.

TAKE APOTHECARIST MEDICINE MAKING FIRST

Advanced Theory of Medicine Making: The Deeper Dive *

Understanding herbal constituents, extraction techniques, and standardization. Offered every May.

Makers Workshops *

2-hour focused online workshops on targeted medicine making topics. 24 in the catalog, 1 each month on a 2-year cycle — choose any 8.

Medicine Making Lab Kits *

Every course marked * ships with a lab kit — herbs and supplies mailed to your door, so you make medicine along with the class rather than sourcing materials yourself.

HOW THIS PROGRAM WORKS

Start in any month — most courses have no prerequisites. Take Apothecarist Medicine Making before MF1, MF2, and Advanced Theory. MF1 and MF2 can be taken in either order.

THE SIX INTENSIVES

take them as they come around on the calendar

GMP for Medicine Makers *

Every February, learn the essential FDA regulations for herbalists. 24 contact hours.

Advanced External Medicine Making *

Each spring, work through liniments, salves, herbal first aid, tooth care & more. 24 contact hours.

TAKE APOTHECARIST MEDICINE MAKING FIRST

Multifractional Herbal Extractions 1 *

Held each July to explore high-level extraction techniques. 24 contact hours.

Advanced Mycology Medicine Making *

Each fall, learn how to effectively process & combine mushrooms with herbs. 24 contact hours.

Master Medicine Making Lab *

Every November — bitters tasting bar, hot alcohol extraction, fat-washing to enhance texture & flavor, avant-garde teas, blending herbal ‘candies’, honeyed syrups & more. 24 contact hours.

TAKE APOTHECARIST MEDICINE MAKING FIRST

Multifractional Herbal Extractions 2 *

Each December, continues the process of learning more intricate medicine making techniques. 24 contact hours.

APOTHECARIST CERTIFICATE
